Miles Lab Expands to Downtown Offices

4 Groups to Occupy Quarters at GC Trust & Savings Bank Annex

(See Pictures on Page 4)

Continuing progress of the Miles Laboratories, Inc., Union Division here has prompted relocation of some departments into new office facilities in the downtown district of Granite City, it was announced today by J. S. M. Dashwood, division president.

Staffs from the international operations, growth & development and management sciences groups are to occupy the entire second floor of the Granite City Trust & Savings Bank building, at 1915 Edison avenue by mid-month.

Also included will be an IBM computer terminal installation linking the division with data processing facilities at the corporate headquarters in Elkhardt, Ind.

In announcing the move, Dashwood said he is pleased with the progress the division has made in the past year and has hopes that the business climate and opportunities in the Quad-Cities would continue to reflect reasonable and favorable relations in the future.

Bank President Ernest A. Karandjoff said the Union Division group will occupy more than 30,000 square feet of space. The offices formerly housed the Metropolitan Life Insurance Co. offices which were relocated in a new building along Nameeki road.

In conjunction with the lease of the offices, the bank is improving a 35-car parking lot in the 1800 block of Edison avenue immediately south of the Washington theatre for the new office employees. Dashwood said about 20 persons will be transferred from the present overcrowded offices at the plant to the newly-leased quarters.

Union Division here is a major producer of corn syrup, citric acid, caramel colors and cyclamate used principally in the food and beverage processing field, as well as in other industries. It also produces and manufactures corn starch for the paper and textile industries.

The Division includes the former Miles Chemical Division and the Union Star Chemical Division, which was acquired in 1966. Its domestic manufacturing facilities are located in Granite City, Elkhardt and Edinburg, Ind., and overseas affiliated companies serve the international market with Union's basic product lines.

Sp/4 JAMES FULLER Killed in Action

(See Pictures on Page 4)

Sp/4 James Larry Fuller, 20, of Granite City, was killed Sunday during a combat operation in Vietnam, his family was informed Monday afternoon.

He is the husband of Mrs. Betty Jane (Sterns) Fuller and the son of Mr. and Mrs. James E. Fuller, 1004 Minerva avenue.

The family was informed of the casualty by a master sergeant at the Granite City Army Depot, and a telegram was received Tuesday morning. First Lt. Jon P. Valfré of the Military Police Co. at the depot is handling arrangements.

Other details of the tragedy were not immediately available, but the family said Sp/4 Fuller was assigned to the Fourth Infantry Division near Pleiku.

He recently was on a rest and rehabilitation leave in Hawaii and was visited there by his wife. She returned home two weeks ago today. The couple was married June 30, 1967. He was sent to Vietnam last March.

He was a construction specialist and last June 7 he received a letter of commendation and certificate of graduation for completing a voluntary helicopter rappelling course held near Pleiku.

New Lt.-Gov. Attains Impressive Victory, Supported Well Here

(See Pictures on Page 4)

State Sen. Paul Simon of Troy attained a strong position in state politics by defeating his Republican opponent, Robert A. Dwyer of Winnetka, for lieutenant-governor of Illinois in the face of the GOP gubernatorial victory by Richard Ogilvie over incumbent Gov. Samuel Shapiro in Tuesday's general election.

With 59% of the state precincts reporting, Simon held a lead of 2,117,442 to 1,013,825. That count did not include 26 of the 186 precincts in Madison county.

Total returns in the local county showed voters handily supported the "favorite son" of the county by a vote of 59,006 to 37,874 for Dwyer, while carrying over in the governor's race to favor Ogilvie over Shapiro by 48,106 to 47,275.

Ogilvie, current president of the Cook county board of commissioners and strongly opposed to the Chicago Democratic machine headed by Mayor Daley, held a late state-wide lead of 2,125,598 to 2,029,269 over Shapiro of Kankakee.

When contacted by the Press-Record today, Simon commented: "It's great to win. I was naturally pulling for Shapiro, but I've always gotten along well with Ogilvie."

"We will have our differences, but I don't think it will be serious. I do not intend to run for office to Ogilvie or to the state administration. I've got to cooperate and help get state government moving ahead."

Simon, though only 39 years old, has risen rapidly in the Illinois political scene. An au-

REPUBLICAN VICTORIES for county offices in Tuesday's election were Robert Thomas of Granite City for the office of coronor, and R. W. Griffith, a native Granite Cityan and now of Alton, who will take over the office of state's attorney.

An avalanche of split ballots cast by an apparent record number of voters upset the normal pattern of party voting throughout Madison county Tuesday, swept Republicans into two major county offices and divided vote pluralities among candidates of both the Democratic and Republican parties at the state level.

In a tight election race that remained uncertain until the last few of Madison county's 186 precincts reported their returns over Leonard R. Davis, incumbent county coroner seeking election on the Democratic ticket.

Top Count for Portell

Democratic incumbents in the other three county offices were re-elected by substantial majorities. Willard "Butch" Portell, incumbent circuit clerk, topped all other candidates on the Democratic ticket at county level, polling a total of 51,988 to 39,103 David E. John of Granite City, his Republican opponent. James Chapman, incumbent Democratic recorder of deeds polled 59,461 to defeat Charles "Bill" Burns of Collinsville, who tallied 40,950 votes.

John L. Kraynak of Granite City, incumbent county auditor and a Democrat, polled 49,519 votes to defeat Pete E. Fuchs of Godfrey with a vote of 41,257.

Unofficial returns indicate that more than 100,000 voters went to the polls in the Quad-Cities and Madison county in an all-time record election. The previous record vote was 99,253 votes cast in the Kennedy-Nixon presidential race in 1960. The Quad-Cities also rolled up record vote totals unofficially at 29,170, compared to its

More than 100,000 Madison county voters went to the polls in record numbers Tuesday, gave presidential candidate Hubert Humphrey a 6074 plurality over Richard M. Nixon and then split their ballots to favor Richard B. Ogilvie, Republican gubernatorial candidate, over incumbent Democratic governor Samuel H. Shapiro.

In the most outstanding display of ballot-splitting ever apparent in any county election, Republican voters in large numbers crossed over to the Democratic side to vote for Paul Simon, Troy Democrat and candidate for lieutenant governor, who rolled up a total tally of 59,906 to lead all candidates on both tickets and to defeat his Republican opponent, Robert A. Dwyer of Winnetka by 26,122 votes.

Simon, now a state senator, was elected lieutenant governor in 1962 after a hard-fought battle, creating the unusual political situation of a Democratic lieutenant governor serving with a Republican governor. Ogilvie defeated Shapiro in a state-wide battle.

Only Venetia township, which showed a decline in the number of eligible voters, failed to match the total vote of 5732 cast in the 1964 election. It showed 5091 ballots cast.

The result of the cross-over here was apparent as four years ago Democrats won national and state candidates a three-to-one advantage and county candidates up to fourteen majorities.

Other County Races

In other county races tallied locally, incumbent Democrat Willard J. Portell of Granite City defeated David E. John of Granite City for circuit clerk. In 1964, Portell, incumbent Recorder of Deeds James F. Chapman of Collinsville won Granite City businessman Charles Burns, who resides in Collinsville, 16,174 to 8922, and John L. Kraynak of Granite City, 15,313 to 7625, incumbent Recorder of Alton for auditor by 17,310 to 8365.

In 1964, Quad-City voters cast 29,259 for President Johnson and 5815 for Sen. Goldwater, while giving Gov. Kerner an average of 18,168 to 7427 over Charles Percy.

This week, however, with Gov. Wallace in the previous year and polling 5983 votes, Vice-President Humphrey received an advantage of 5131 to 4315 over winner Richard Nixon, and Gov. Shapiro topped winner Richard B. Ogilvie by only 15,065 to 11,227.

Area Birthrate For October Sets '68 Record

The October birthrate for the Quad-Cities was the highest of the year with 107 babies born, it was reported today by Granite City Clerk Homer "Cal" Pendleton, who compiles vital statistics for the entire area. The previous record for the year was 91 births in June.

The 107 babies born last month represent an increase of 17 over September and five over the October 1967 birthrate. The deathrate during October was 35, down slightly from the 35 deaths reported in September.

Statistics for the first 10 months of the year show 896 babies born in 1968 compared to 813 in the same period in 1967. The 10-month deathrate is 365 last year, down from the 413 reported in 1967.

Ebersoldt, Grant Re-elected to Levee Board

William "Mike" Ebersoldt of Venice and Joseph Grant of Granite City, incumbent Democratic members of the East Side Levee and Sanitary District board of trustees, won re-election by a majority of almost two to one over their Republican opponents in Tuesday's general election.

In the 32 precincts of the Quad-Cities which makes up the Madison county sector of the bi-county levee district, Ebersoldt polled a total of 13,339 votes. Grant received 13,338 votes.

Their GOP opponents, Andrew Jess Parson and Edward Werner, both of Granite City, polled 7139 and 7349 votes respectively.

Judgeship in 3rd Circuit Won by William Beatty

William L. Beatty of 115 Riviera drive, Democratic candidate for circuit judge, won over John B. Coppinger, Alton Republican, by 8885 votes, according to the unofficial tallies of votes cast in Madison and Bond counties.

Beatty, 43, carried every precinct in the Quad-Cities to roll up 16,677 votes to 7333 for Coppinger. In Madison county, Beatty's total for all 186 precincts was 49,464, while Coppinger received 40,329.

In Bond county, Coppinger topped the local lawyer 3322 to 2965.

Beatty, whose law offices are at 2038 Edison avenue, will serve in the Third Judicial Circuit which includes Madison and Bond counties. The judgeship was created by the General Assembly because of the excessively large number of cases assigned to the present

three circuit judges.

Beatty has had law offices here since 1960. He is a former city attorney, a 1st assistant state's attorney.

"Each officer in the four municipalities will be given ten citation forms which they will award to youngsters in recognition and appreciation of commendable behavior," MacMillan said.

He pointed out that "good behavior" may involve a student who works diligently as a

schoolboy patrol, one who assists younger children in some manner or is generally well-mannered and shows pride in himself and community.

The issuing officer must believe that the young person does a good job, or is an asset to his family, school or neighborhood, the project chairman said.

All Quad-City youngsters are eligible to receive a citation award and no age limit has been set, MacMillan added.

There are 400 citations for youngsters available in the Quad-Cities.

Citations will be signed by the issuing police officer, the chief of police of his community and Optimist President Fred Cunningham.

Young people receiving citations between Monday and Saturday, Nov. 16, when the project ends, are asked to complete the attached stub with his name, address and telephone number and return the portion to his local police station.

The stub portion must be returned as quickly as possible, MacMillan explained, and prior to Tuesday, Nov. 19, when Optimist club officials will collect the citation stubs. From those issued and returned, the club will then select the names of several youngsters to receive gifts, he said.

MORE ABOUT 816-Vote Victory

previous record of 27,375 votes, also cast in the 1960 balloting.

While no tabulation was made of the total vote by the county clerk's office, the combined vote of the three presidential candidates in Tuesday's general election was 100,896.

QC Candidates Lose

Scroggins and Davis, both of whom conducted intensive campaigns prior to the election, obviously lost their bids in the county outside the 54 precincts of the Quad-City area of Granite City, Venice, Nameoki and Chouteau townships.

In the Quad-City area, Scroggins outpolled Griffith by 5881 votes, receiving a total unofficial tally of 16,100 votes in the four townships. Griffith received 10,366. Similarly, Davis polled 15,079 in the Quad-Cities, a plurality of 3195 over Thomas' 11,884 votes.

These pluralities proved insufficient to offset the onslaught of split ballots in favor of Griffith and Thomas in outer county precincts. The total Democratic vote of 51,988 cast for Portell is an example of the extensive ballot splitting. Scroggins total county vote of 45,146 shows that approximately 6000 persons who voted for Portell, running on the same ticket as Scroggins, did not vote for Scroggins and can be considered to have split their ballot in favor of Griffith.

The split balloting was responsible for the lateness of election returns, since precinct judges and clerks were required to tabulate returns for each individual candidate. In elections following party lines more closely, the tabulation is speeding up because there are more straight ballots that count for all candidates.

The first returns did not reach the county clerk's office until 9:05 p.m. Tuesday, and those from Alton No. 24, which is among the smallest precincts in the county. The first Quad-City precinct, Venice No. 5, also a small one, was not reported until 10:55 p.m.

Precinct returns continued at a slow pace throughout all of yesterday. At 6 p.m. yesterday, seven precincts still were reported. Three of these were in Wood River, one in Alton, two in Edwardsville and one in Jarvis township.

All of these with exception of Edwardsville precinct No. 6 reported returns by 7 p.m., but the No. 6 precinct did not report until 12:35 a.m. today. Consequently, tabulation of the unofficial returns required a period of slightly more than 30 hours from the time the polls closed at 6 p.m. Tuesday.

One of the few Quad-City precincts adhering to the straight party principal was in Venice No. 4 where a total vote of 420 was cast. Of these 379 were straight Democratic ballots. Only 11 Republican straight returns were reported in the same precinct and presidential candidate George Wallace received only one vote.

Representatives Elected Without Sweat

Voters in the seven townships of the 55th Representative district elected three state representatives in Tuesday's balloting, but the voting was a matter of form since nomination of state representative candidates in primary election is tantamount to election.

The voters elected Leland Kennedy, incumbent Democrat of Alton, with a vote of 56,653, and Horace Calvo, Granite City Democrat who received 54,231. Ralph T. Smith, former Granite City and now an Alton attorney, was re-elected with a total of 51,926 votes.

State representatives are

elected under a cumulative system of voting by which either one, two or three votes from each voter, accounting for the large majority received by Smith who was the only candidate on the Republican ticket.

Elected in Primary

The number of state representatives to be elected within a given district is determined prior to the primary election and only that number of candidates is nominated. Therefore, the same number of candidates is elected as routine in the general election. The only contest

lies in which of the candidates polls the largest number of votes.

The 55th Representative District consists of Granite City, Venice, Nameoki, Chouteau, Collinsville, Alton and Wood River townships.

Smith was elected to his eighth consecutive two-year term. He now is Speaker of the Illinois House. Kennedy also was re-elected to his eighth consecutive term, while Calvo replaces Lloyd "Curly" Harris of Granite City, a Democrat and 32-year veteran of the Illinois legislature who retired this year and did not seek re-election.

WILLARD PORTELL

JOHN KRAYNAK

JAMES CHAPMAN

INCUMBENT DEMOCRATIC county officials won re-election to three of the five county posts in Tuesday's general election. Left to right, Willard "Butch" Portell, circuit clerk; John L. Kraynak, county auditor, and James F. Chapman, recorder of deeds.

No. 3 reported a total vote of 822, but of these only 217 were straight Democratic ballots and only 135 were Republican straight.

To overtake Scroggins lead in the Quad-City area, Griffith rolled up a total vote of 37,384 in all parts of the county outside the Quad-Cities, unofficial returns show. Scroggins polled only 28,956 in the county area.

Davis polled 30,945 in the 132 county precincts outside the Quad-Cities, but Thomas received 34,966 to overtake the lead Davis had in the Quad-Cities.

Both Scroggins and Davis were serving as incumbent county officials by appointment and both were seeking election to the full four-year terms of each office.

Three special propositions, all state issues and voted on separate paper ballots, apparently were defeated throughout Madison county generally, although no tabulation of returns on the special issues was made in the election bureau at Edwardsville yesterday.

The issues included a proposal to issue \$1 billion in bonds for air and water pollution control and development of water resources and recreational facilities; a proposal to call a constitutional convention, and a proposed banking amendment that would permit state banks to operate foreign exchanges, an authority that federal banks now have but state banks do not.

A great majority of precincts cast heavy "no" votes against all three propositions. Final results of voting on the special issues will be tabulated in the official canvass of the Tuesday election vote which will be undertaken immediately by the county clerk's office.

Reservations for Boy Scout District Dinner

Reservations are still being taken at the Cahokia Mound Boy Scout Council office for the annual Uniwash district banquet to be held at 6:30 p.m. next Thursday, Nov. 14, at St. Elizabeth school.

New district officers are to be installed and scouter awards are to be presented. Capt. Emil Toffant, district state police commander, will introduce Ross V. Randolph, director of the Illinois State Department of Public Safety, who will be the banquet speaker.

Future of SIU-SW Is Madison Rotary Topic

Dr. Bruce Thomas, assistant to the SIU-SW chancellor, reviewed growth trends and need of facilities at the university in a talk to the Madison Rotary club yesterday. He described the campus and its newly opened ballroom and restaurant.

The speaker also discussed SIU-SW work in poverty areas. Madison School Supt. Raymond Dragich was program chairman, and President Will Radman appointed memorial playground drive committees.

Mrs. Valerie Stevens of the Madison school system led a singalong and taught patriotic songs.

Local Marine Extends Duty; Expected Home

Marine Lt. Col. Terry M. Cooper has volunteered to extend his service time in Vietnam by six months and is expected to arrive home on a month's leave at any time, his parents, Mr. and Mrs. James Cooper, 506 Jefferson avenue, Venice, learned this week.

The 19-year-old Marine arrived in Vietnam in September 1967 and was wounded in action against the enemy four weeks later. He was hospital-

ized two months in Japan and returned to Vietnam shortly before last Christmas.

A 1967 graduate of Venice high school, Lt. Col. Cooper enlisted in the Marine Corps in July 1967. He presently is stationed at the First Marine Division R & R Center at Da Nang, but expects to be reassigned to another unit upon his return to Vietnam before Christmas, his mother said.

Mrs. Cooper noted that the serviceman's address which appeared in Monday's Press-Record "Yule Mail Call" will be changed when he returns overseas early next month.

Price, Simon Lead
U. Rep. Melvin Price, re-elected to his 13th consecutive term, continued to lead the Democratic ticket in the Quad-Cities and in other precincts of Madison county. Troy withstood a crossover at the top of the state ticket by defeating Robert A. Dwyer by 21,270 to 15,753.

Simon's state-wide victory caused a political split in the top administrative level with the election of GOP challenger Richard B. Ogilvie as governor.

All three special state issues set back the Quad-City area, by 12,050 to 9729 for the billion dollar air and water resources bond issue, 11,299 to 11,021 for the constitutional convention and 11,379 to 9048 for the state bank amendment. The totals include all but two precincts in Granite City township where they were unavailable.

The large vote, the numerous crossovers and the special ballots caused long delays in reporting of the vote in the Quad-Cities and in other precincts of Madison county.

Delays in Reporting
The first precinct to report to the office of the Madison county clerk's office, where newsmen conducted tabulations, was a small one from the Quad-City area, where the local precinct to report was Venice No. 5, which called at about 11 p.m. with a total of 390 votes.

A report was received from Granite City precinct No. 23 at about 1 p.m. Wednesday with 1100 votes, while the final area precinct to report was Chouteau township No. 1 at about 1:20 p.m. with 830 votes. Seven of the county's 186 precincts were still being tabulated late last night.

Other heavy precincts in total votes cast were Nameoki No. 1 with 1059, Chouteau No. 4 with 899, Venice No. 8 with 663 and Granite City No. 17 with 950.

Ballot Counting Delay Stirs Vote Machine Interest

Long delay in tabulation of ballots cast in the Tuesday general election, precipitated by the unusually heavy vote on four separate paper ballots, stirred widespread comment that the time has arrived for Madison county to install voting machines.

The last precinct (Edwardsville No. 6) returns reached the county clerk's office at 12:35 a.m. today—30½ hours after the polls closed.

The reaction came as many thousands of persons sought results of balloting within several hours after the polls closed—only to be told that no returns whatever had yet been received.

Normally, at least a few results from smaller precincts are available within an hour or two to indicate an early trend. Tuesday night, however, it was not until 9:05 p.m. that the first returns came into the election bureau maintained by the news media in the courthouse at Edwardsville.

Those returns came from one of the county's smaller precincts—Aiton No. 24—reporting only several hundred votes. The first Quad-City precinct returns arrived at the county clerk's office at 10:55 p.m., nearly five hours after the polls closed. The precinct clerks and judges of Venice Precinct 5 reported a total of 390 votes cast in that precinct, along with the candidates' tallies based on the relatively small balloting there.

Reports Delayed

Only eight precincts—all small ones—had reported election returns by 11:30 p.m. Tuesday. Only three Quad-City precincts had turned in tallies by midnight.

In contrast, East St. Louis with 51 precincts, compared to 52 precincts in the Quad-Cities, had received tallies from all precincts and completed vote tabulations by 12:30 a.m. Wednesday. St. Clair county, with more than 120 additional precincts, completed vote tabulations within a few hours after midnight.

All precincts in St. Clair county and East St. Louis use voting machines, as do many counties in the state of Illinois. Election workers in the county clerk's office at Edwardsville were required to tabulate voting returns throughout the night and all-day yesterday. They still were waiting for reports from several precincts last night.

Edwardsville Precinct 6, the last polling place to report, had 874 voters.

three, 245; four, 460; five, 390; six, 383; seven, 350; eight, 663; nine, 611; ten, 160; and eleven, 454.

CONG. MEL PRICE Wins Again

**Price Re-elected
--As Usual**

Congressman Melvin Price, Democrat of East St. Louis, scored his usual easy victory Tuesday night in his bid for re-election to his 13th consecutive term from the 24th Congressional District which includes the Quad-Cities and other Madison county townships.

Price, who was elected while serving as an enlisted man in the U.S. Army in 1944, has been re-elected every two years since.

In the 11 townships of Madison county which make up the 24th Congressional District along with all of St. Clair county, the incumbent Congressman polled 66,211 votes, while his opponent, John Guthrie, a building contractor of O'Fallon, Ill., received 17,402 votes.

Price's St. Clair county vote was 66,487 to 28,025 for Guthrie. The Madison county sector of the 24th Congressional District includes Granite City, Venice, Nameoki, Chouteau, Wood River, St. Joseph, Jarvis, Pin Oak, Collinsville, Edwardsville and Fort Russell townships.

IPC Offers to Purchase Levee District Tract

The Illinois Power Co. is interested in purchasing about three-quarters of a mile of right-of-way owned by the East Side Levee & Sanitary district along the Chain of Rocks canal levee and adjacent to new Federal Aid Route 151, apparently to prepare for future industrial expansion in that area.

At a levee board meeting Wednesday morning, an agent for the utility from Decatur offered \$24,986 for the land which ranges from 200 to 300 feet wide.

The offer was referred to the board's right-of-way committee with orders to present a report at the December meeting.

If the levee district sells the land, it would be through public bids, William Ebersold, Venice trustee, pointed out. He added that the board also has an interest in industrial expansion as it would increase the district's tax base.

Following the ceremony, the group was invited to dine at the Federal Bar Association building with the National Lawyers Association and was given a tour of government buildings by Redmon.

GC Steel Cuts Price on Rolled Sheet Steel

Granite City Steel decreased its base price for hot rolled carbon steel sheet from \$5.675 per hundred pounds to \$4.425 per hundred pounds, effective at 12:01 a.m. today. The company's conditions of sale and related list of extras will remain as now published.

John A. Leschen, vice-president in charge of sales, said, "We are taking this action reluctantly and only because it is necessary if we are to remain competitive with other domestic steel producers and maintain our market position. It is obvious that hot rolled sheet products cannot be produced at a profit after a reduction in base price which amounts to \$25 per ton."

"The adverse impact of this development will be further emphasized in the case of Granite City Steel Co. as long as employees in our blast furnace department remain on strike. This is preventing the operation of our steelmaking facilities and forcing us to the costly expedient of buying semi-finished steel from other producers in order to operate our hot strip and other facilities and supply our customers."

3-Way Title Tie Possible As MHS Ends Football Season at Bethalto

The Madison high school Trojan football team will be trying to win the Midwestern Conference championship on the road Friday as the local squad travels to Bethalto for an 8 p.m. game against the Eagles.

The visitors, on the other hand, will be striving to tame the Trojans and end the season in a possible three way tie for first place between Bethalto, Madison and Dupu.

Madison is 4-0 and Bethalto is 3-1 in the conference. Dupu, which will play at Argenta-Oreana this week, has completed its league schedule with a record of four wins and one loss.

Coach Ed Hartweg reports that he was able to see Madison play against Dupu and that he was impressed with the team. "We're going to have to stop Madison's backfield from getting long yardage; Harold James beat Dupu and is just as likely to give us a rough time. Dwayne Shaw missed the game I saw, but he also will be tough to stop."

Quarterback Jim Scott throws the football like a bullet, and you can't expect to intercept very many of his passes. Scott will have in the backfield with him James and Shaw at halfbacks and Dale Clinton as the fullback.

Scott, James, Shaw, Clinton. Current statistics show that Scott has thrown the ball 87 times and completed 44 for a total of 1094 yards and a pass completion mark of 49%.

James has carried the ball 74 times for 689 yards as the team's leading backfield worker. Dwayne Shaw has run 68 times for 661 yards and Clinton 60 times for 451 yards.

Probable Defensive Lineups:

Eagles—Ends—Sykes and Gene Walton (197 Jr.). Burgund and Best. Guards—Wall and Norris. Linebackers—Moran and Grigby. Halfbacks—Prange and Bob Deist (Sr. 165). Safety—Schoppett.

Score comparisons give Madison an edge over Bethalto in games against Mater Dei, Highland, Dupu and Roxana, while the Eagles defeated Triad more easily than did the Trojans.

Bethalto began with a 27-0 loss to Wood River and a 14-20 setback at the hands of Jerseyville, with Hawkins tallying on an 18-yard pass from Moran and Diest getting a four-yard TD run.

Loss, Then Win Three
Bethalto began its Midwest season with a heart-breaking 14-13 loss to Dupu, with Moran engineering a 35-yard touchdown run and Prange passing to Jones for a 58-yard TD.

Next, the Eagles blanked Highland 13-0, Prange passing to Moran for 56-yard and 25-yard TDs, defeated Roxana 20-6, with Prange tallying twice and Moran once on one-yard plunges, and trimmed Triad 21-6. Moran, Imel and Prange going over on runs of one, two and six yards.

The last two games have been disappointments. Moran and Prange scored on short runs in a 20-14 loss to Mater Dei, and Moran took a 25-yard TD pass from Prange and Phipps had a 17-yard TD run in a 56-13 loss to Cahokia, a former Midwest team no longer in the conference.

Warrior Sophs End Year With 19-6 Win

The GCHS sophomore football team ended its 1968 campaign with a 19-6 victory at home against Assumption of East St. Louis Monday.

Season record for the local eleven was 5-1-2, with the only loss handed to the Warriors by Belleville West early in the season.

Halftime score was 6-0 after Mike Wilson connected on a 20-yard pass to John Ireland in the second quarter. This was the last of a seven-play series that started at the Granite City 40-yard-line.

The second touchdown was scored by the same two players on a 30-yard play. In the last quarter, Ned Tapp swept right end for 20 yards and a TD.

Morrison to End GCHS Coaching Next Spring

Jim Morrison, head coach of the Granite City high school Fighting Warriors football team and head track coach, said today that he has submitted his resignation as a physical education teacher.

Morrison said, "The purpose of my resignation is so that I may leave with the senior class which has been so loyal and faithful to me through these very difficult times." The team has not won a game for two seasons.

"I have given my resignation as early as possible so that this very fine school district may have maximum time to find a suitable replacement for me," he continued.

Seek Victory Tomorrow

"My immediate plans will be to try the hardest to win my last Granite City football game against Belleville West here Friday evening, and in the spring to produce the best track team possible."

Morrison will remain at Granite City high school for the remainder of the 1968-69 year.

Rare Blooms Appear On Sansevera Plant

A Sansevera plant, commonly known as a "mother-in-law tongue," owned by a local resident and her husband's mother the past 15 years, unexpectedly produced three tall spiky buds this week, which promise to evolve into slender greenish-white blooms within a short time.

Mrs. Imogene Best, 65a Deborah court, said she purchased the plant for her mother-in-law, Mrs. Dorothy Best, 2902 East 23rd street, about 15 years ago. The plant outgrew several pots, survived subsequent transplanting operations and, about three years ago, was returned by Mrs. Best to her daughter-in-law's care.

"It was rather a small plant at first, but has grown slowly over the years and now meas-

ures about 30-inches high," Mrs. Best said. The specie seldom requires water and also rarely blooms, she noted.

Earlier this week, the owner noticed three new stems, covered with buds, emerging from the plant. A sticky substance is oozing from the tiny pale green buds, which are opening at a slow pace.

"I can't grow anything," Mrs. Best commented. "I have tried all kinds of household plants, but they usually die. This one keeps on thriving and growing."

The late blooming plant with its thick pointed leaves, furled at the base and widening toward the center, frequently has been washed and once was cleaned thoroughly with kitchen paper. "Even this didn't appear to hurt it," Mrs. Best noted.

Boosters, Labor, Firms Building GCHS Pressbox

Granite City has been the only team in the Southwestern Conference without a football pressbox, but a large and attractive one is being constructed at the Fehling road stadium.

The idea of the pressbox branched off from an idea five years ago of Richard Newman, past president of the Boosters of the Fighting Warriors. At the time it was thought that perhaps a stadium could be built, but after finding out that it would cost an estimated \$600,000 the group dropped the project.

The Boosters' next came up with the pressbox plan after noting that the only facilities were a scaffolding that is built at the 50-yard line for each game.

Under Way Two Months
The building of the pressbox started in mid-September and is continuing. Work has been taking place on Tuesday and Thursday for two to three hours a day and all day on Saturdays.

Cub bricklayers have done most of the bricklaying. Many apprentice carpenters also have donated their services.

Although it is estimated that building this site normally would cost about \$30,000, with all the donated time and materials it may cost only \$4000.

The building was designed by Mick Worthington Brick Co. He has also put in many hours of work on the building as well as loaning a concrete mixer.

Three-Story Structure
The dimensions are 14x40 feet. There will be three stories. On the first floor will be a place to store equipment, benches for coaches to talk to their players before game time, and ample room to show films of the game.

The second floor will be for dignitaries attending the game; this will include college scouts and coaches.

The third floor will have enough room for 15 people to work freely. This will be for press, radio, game spotters, timekeepers and high school scouts.

Game Movie Platform

Above the press will be a platform for movies to be taken from an unobstructed viewpoint.

Some materials are being contributed and others are being provided at cost.

The box will be completely carpeted on the second and third floors as well as having large glass windows. It will be heated, and there will be concession machines for coffee and food.

On the third floor will be phones for reporters to communicate with their coaches.

Emerald Dawes, president of this year's Boosters club, said, "We have been trying to get the best results of our final game, but the recent rains have made it impossible. However, we will have a box ready for the soccer season."

Fund Campaign
Receipts have included contributions and proceeds from an Ozark Opry program early this year.

Materials for the pressbox were donated by the Richards Brick Co., and Paul Seebold aided the concrete block phase and digging of the footing.

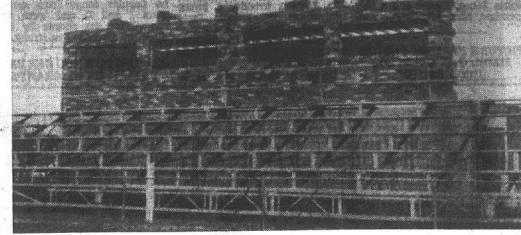

Tom Skerle, Tom Nesbit and Ed Durbin donated their time as concrete finishers. Dron Electric Co. provided electric wiring that will be installed by the electric shop of Granite City high school.

The floor covering was obtained from Midwest Floor and Granite City Glass will do the glass work.

Memorial to War Dead
It has been decided that it will officially be known as the Memorial Pressbox. It will be dedicated at the first home football game of next season.

It was built in honor of Fighting Warriors who have been killed in the service.

Others of the Boosters include Tony Melcar, vice-president; Gene Monahan, vice-president; Nick Pettillo, chairman of the pressbox project; Willis Shepard, program chairman; and Cecil Nash, membership chairman.

THIRD-STORY BRICKS are placed for a new pressbox at the Granite City high school athletic field (left to right) Tony Melcar, Emerald Dawes and Bob White. It is hoped that the box will be completed before the soccer season begins, but will not be officially dedicated until next fall.

CONSTRUCTION WORK on the new Memorial Pressbox at the Granite City high school stadium as performed by Gene Monahan, carrying bricks, and Charles Ganz, putting sand in a concrete mixer.

Contract Talks Resumed Today For Blast Furnace

Negotiations in four major Quad-City area industrial strikes today began with only one instance today, although several other contract talks may be arranged early next week.

Officials of Granite City Steel Co. and union leaders of International Chemical Workers Union Local 50 at the blast furnace plant resumed contract talks at 10 a.m. today following a six-hour session yesterday.

Nearly 1000 Chemical Workers have been on strike at the blast furnace plant since Oct. 1 in a dispute over wages. Union leaders and company officials met, however, last Friday, Saturday and Sunday, resuming the talks yesterday.

No further meetings have been scheduled however to discuss contract terms in the strike of 60 machinists at American Steel Foundries. Striking workers are members of the International Association of Machinists District 9 who are demanding wage and seniority adjustments. Union leaders and company representatives met last Friday, but broke off without progress.

Negotiations also are a standstill in the strike of 1200 steel workers at General Steel Industries and the strike of another 700 steelworkers at the Madison plant of Dow Chemical Co. The last talks in the Dow strike were held last Thursday, reportedly without progress.

The strike at General Steel Industries started last Saturday morning and no meetings between company and union representatives have yet been arranged.

Nearly 4000 persons are idle in the four strikes.

Plans by Granite City Steel Co. to proceed immediately to the plant reportedly had repair the second blast furnace been dropped today after craft workers of the Operating Engineers union refused to cross the chemical workers picket line.

The company started repair work on the furnace last week but the operating engineers changed their minds about continuing while the strike was on. The other furnace on which repairs were completed after the chemical workers strike began has been ready for operation since Monday.

Operating engineers, ironworkers, bricklayers and other craft workers are required for the furnace, a multi-million dollar job.

Wiring Causes Trouble

Responding to a fire call at 1:30 a.m. today at 4204 Kirkpatrick Homes, police reported wiring trouble in a furnace had caused problems, but no fire was evident.

Quietest Election in Years, Officials Say

Despite earlier predictions of fraudulent voting and claims of phony registrations and election tactics, Tuesday's general election was one of the most quiet in many years, according to police, to answer such calls.

Capt. Emil Toffant of the Illinois State Police district at Maryville said he had prepared to handle any emergencies that might occur on election day and assigned three officers to police, to answer such calls.

"We received only two calls and neither of them amounted to anything," Toffant said. "They were more questions of election procedure than anything else and didn't involve any claims of fraud. Our men did have to go out on a single call."

Area FBI agents said they received several calls but they were of the same type as those received by state police and "were of a nature to be settled by election officials." FBI agents in the area, like state police, were not called out in a single instance.

Police authorities in the Quad-City area said they received a single call for disturbances or election squabbles in or near any of the voting precincts Tuesday.

Assigned in Vietnam

Army Pfc Dennis M. Barbee,
20, son of Mrs. Tommy Ham-
mett, 2501 Lowry street, has
been assigned to the 1st In-
fantry Division near Lai Khe,
Vietnam, as a light weapons
infantryman.

ARC Ditty Bags -- Thousands of 'em -- Enroute to Vietnam

Stoutly packed boxes,
crammed to capacity with small
green and red denim sacks filled
with goodies, are enroute this
week to places once unfamiliar,
which have become household
words in most American homes.

Hamlets, villages and towns
with names that now roll easily
off the tongue -- An Khe, Rue,
Blon, Chu Lai, Da Nang, Hue,
Cam Ranh Bay and Kontum --
whether found in remote sec-
tions of the Central Vietnamese
Highlands; nearer the accessible
coastline region or around the
massive troop staging areas, all
will receive their quota of Red
Cross ditty bags within the next
few weeks for distribution to
S. servicemen before Christ-
mas.

Several Quad-City groups and
individuals have contributed
time, effort and money to help
the Tri-City American Red
Cross Chapter prepare 350 ditty
bags toward the National Red
Cross 1968 Christmas quota of
an anticipated 600,000 bags.

Shipped Last Month

Mrs. Ruby Overbeck, Tri-City
chapter executive director, re-
ported that packaging and wrap-
ping of ten 70-pound boxes was
completed last month and the
bags shipped to Vietnam.

For the first time, the chapter
official noted, Granite City
Army Depot military personnel
assisted local Red Cross work-
ers to package the ditty bags
for shipment.

The Red Cross paid the post-
age to a west coast mail re-
ceiving center, where the ten boxes
were then loaded onto Vietnam-
bound vessels, Mrs. Overbeck
explained.

Once in Vietnam, distribution
of the gifts begins. It is done
by various methods, the Red
Cross director said. Many times
the bags are stacked on pallets
and transported by helicopter
into the thick jungles and haz-
ardous combat zones and pre-
sented to each soldier by Red
Cross personnel as the men re-
turn from patrol.

Other servicemen receive
their welcome Christmas gifts
in hospital, awaiting trans-
port to camp, or while visit-
ing Red Cross recreation clubs.

One of the most heartwarming
scenes, vividly described by a
Red Cross field representative
Mrs. Ruby Overbeck, took place
last Christmas at Fire Support
Base Naha, a remote unit lo-
cated on a half-mile stretch of
ground surrounded by barbed
wire and Viet Cong.

An ARC staff member who
helped to distribute some of the
600,000 gift bags at Naha de-
scribed the event:

"Coming in high to avoid
ground fire is the mighty Chi-
nook helicopter with its cargo
of Red Cross Christmas gifts
hanging precariously from its
sides. The pilot tells the pilot it's
safe to land. Gently he lowers
his cargo onto the helipad, and
the automatic release drops the
support cables.

Santa Arrives
"Meanwhile, on the other side
of the camp, distinguished visi-
tors arrive," the Red Cross re-
presentative continues. "A Huey
chopper sets down and out pops
Santa Claus himself, in full red
regalia, followed by two young,
attractive Red Cross children girls."

"The truck with its load of
Christmas presents churns up
the dust toward the same spot.
A pat on the back and a robust,
"Ho! Ho! Ho!" greets every sol-
dier who gets close to Santa,
and a warm smile and wave is
awarded to everyone who looks
up from his work and sees a
Red Cross girl."

"It didn't take long for most
of the men in the camp to
gather around Santa, his help-
ers and his olive-colored sleigh."

RED CROSS RECREATION WORKER, Glenna Sheeran, adds a smile and a
touch of back home to a refreshing drink for combat troops who are resting
and awaiting distribution of Red Cross ditty bags. Red Cross men
and women are assigned with servicemen near the combat zone in hospitals and
with major military organizations where American servicemen are stationed
around the world.

For nearly an hour they passed
out green and red bags to smiling
servicemen. The men gath-
ered in small groups and opened
holidays wrapped presents and
read cards and messages from
people in America who care
about the fighting men in Viet-
nam.

"Some men sat quietly by
themselves, others laughed and
joked about what they found in-
side the colored bags. When
everything had been looked at,
read, explored, each man care-
fully repacked his bag, and a
couple of hundred tied, dusty
soldiers went back to work with
a little Christmas tied to a br-
agging over a shoulder or hang-
ing from a swinging hand."

tral Christian Church, Neigh-

Other Red Cross Services
Distribution of ditty bags,
operation of canteens and recre-
ation centers, or even compas-
ionate duties performed in mili-
tary hospitals and for service-
men in the field, are not the
only chores performed by the
American Red Cross in Viet-
nam. Mrs. Overbeck advised
that the chapter has 28 volun-
teers, and the chapter is in
close cooperation with the U. S.

Miss Paula Broadway, one of
several individual women who
made and filled ditty bags, also
designed her own personal
Christmas cards to include in
each gift. Other individuals who
participated were Mrs. Jean
Nee, David Schilling, James
Thornberry and Bucur "Billy"
Mhu Jr.

In addition, the degree was
conferred upon five members
of the Edwardsville chapter --
David Aubrecht, Richard Gil-
christ, Gregory Klaus, Steven
Dickey and Barry Jellen.

The Edwardsville chapter,
with delegation of 15 mem-
bers, claimed the District 4
Uncle Jimmy Stuart visitation
trophy. Members and visitors
from East St. Louis and Ed-
wardsville were introduced and
spoke.

Corn Matured Early

Corn in Madison county matured about 10 days earlier this year than normal. Last year it was at least 10 days later than normal in maturing. As a result, farmers are having fewer harvesting problems this year as compared with last year.

Agronomists who keep records of heat units say the 1968 growing season produced 10 to 15% more heat units than in 1967, thereby pushing corn faster toward maturity. "Heat units" express the number of degree days above 50 degrees F.

About half of the corn in

Granite City PRESS-RECORD
Page 26 Thurs., Nov. 7, 1968

Madison county has been harvested, but farmers in some areas of the county are more advanced with their harvest than in other areas.

Practically all the corn is safe from frost damage. Corn is considered mature when it reaches 30% moisture. Corn that has not reached the 30% moisture level by the first killing frost is called "soft corn."

Fall Plowing

The question of fall plowing comes up as some farmers complete their harvest. Soils in a few areas of Madison county are difficult to prepare for planting in the spring unless they are fall-plowed.

Loose, bare soil and dry, windy weather result in soil blowing or wind erosion.

The farmer feels the impact

of wind erosion through the loss of top soil, crop damage from blowing soil and the deposit of soil contaminated with weed seeds or chemical residues in fields that are clean and residue free.

Erosion is a serious problem on soils with subsoil that is unfavorable for root development. The loss of a few inches of surface soil may cause damage that cannot be repaired. The choice on such soils is (1) to plow in the fall and risk a permanent loss of productivity or (2) to plow in the spring and risk a delay in planting.

The rush to early planting has caused some farmers to switch to fall plowing. As a result, many fields are bare and vegetation-free during the winter and early spring. Such fields offer little resistance to soil blowing.

When fields are bare and soil

is loose and dry, wind erosion may occur when the winds reach a rate of 13 mph or more.

When land must be fall-plowed, strip plowing can help control erosion. Unplowed strips should be at least 15 feet wide and no more than 100 to 120 feet apart.

The strips work best when laid nearly perpendicular to the direction of the prevailing winds. During the winter, the winds come mainly from the northwest. But in the spring, especially during March and April, strong winds come from both the southwest and the northwest.

The most severe wind erosion occurs on the isolated areas of sandy soils. In such areas, soil-seeded small grains provide the most complete wind and water erosion control. If you're seeding oats as a cover

crop, sow one-bushel per acre and cover the seed using a spike-tooth harrow. If you're planning to use a pre-plant grass-control herbicide, or if you need early spring grazing, you can seed rye.

Corn and soybean crop residues left on the ground over winter reduce both wind and water erosion. That's another way of saying don't fall plow.

Nearly any minimum-tillage system such as chisel plowing, using a field cultivator or disk leaving some residues on the soil surface and reduces erosion.

The decision to plow this fall or to wait until spring is yours to make. You are likely to be more satisfied with the results of your decision if you carefully size up your own situation in terms of your soil, your crop-production plans, and the potential gains and losses in-

involved in plowing this fall or next spring.

The Illinois Department of Insurance collected and forwarded \$45,801,443 to the State Treasury in 1967, Director John F. Bolton Jr., has announced. The collections represent 22 different taxes, fees and charges administered by the department under the Illinois Insurance Code and related laws. The department's operating budget was 5.8 per cent of this amount.

Of the 26,753 policy forms reviewed through the Policy Examination Branch 11,625 were approved. The Fraternal Division examined 417 fraternal policies and approved 260 forms for issuance in Illinois. More than 155,318 agents, brokers and solicitors' licenses were issued in 1967.

Minerals produced in Illinois in 1966 were valued at \$644 mil-

lion, the Illinois State Geological Survey reported last week.

This is an increase of \$25.5 million over the 1965 valuation of \$618.5 million, and the highest annual value ever recorded in the state.

Coal produced in 1966 was valued at \$243.4 million, almost \$25.6 million more than the previous year. Other minerals showing increases in 1966 were common sand and gravel, silica and fluorspar. Clay products also showed an increase over 1965. Coal contributed 37.8 per cent of the state's total mineral value in 1966; crude oil, 29 per cent; stone products, 16 per cent.

A free copy of the report, "Mineral Production in Illinois in 1966," may be obtained by writing to the Illinois State Geological Survey, Urbana, Ill., 61801.

Cigaret Tax Crackdown

An eleven-point program designed to close the door on potential cigarette tax avoidance of all types was announced by the Illinois Department of Revenue at public hearings before the Illinois Crime Investigating Commission exploring problems of cigarette taxation.

The administration proposes to ask the General Assembly for legislation that would provide for increased penalties — up to \$100 per violation in certain cases for illegal possession of unstamped or improperly stamped cigarettes and other infractions.

This program, Director of Revenue Theodore A. Jones said, would reach back into the "logical source" states for potential bootleg cigarettes. He named these as North Carolina, which has no cigarette levy, and Kentucky, which imposes a nominal tax of 2½ cents per pack.

Federal Funds Sought

Gov. Samuel H. Shapiro has submitted to the federal government for the construction of Community Mental Health Centers for the fiscal year 1968.

Under this federal program, Illinois is eligible to receive a total of \$1,466,632 for construction of community mental health centers. Since 1963 Illinois grants totaling \$5,207,677 have been approved by the federal government.

Military Base New School

A former military installation near Peoria has been reopened as the Illinois Youth Commission's newest rehabilitation facility.

The former Air Force radar base at Hanna City, eight miles west of Peoria, will become the Hanna City Boys' School, one of three special education schools operated by the commission. From 100 to 150 boys may eventually be accommodated on the 40-acre site.

Leonard H. Stidley, 42, former director of the Williamson institution, will be director of the Hanna City School.

Halfway House Success

Initial reports on the Duncan Way Community Center in Chicago, the first "halfway" house operated by the state of Illinois, indicate that great progress has been made, assuring complete success for the program.

He thinks of no greater exercise in the rehabilitation objectives of the state of Illinois than that of restoring men to a place in the normal society of our communities," Gov. Samuel H. Shapiro said. "The halfway house program certainly has shown the capacity to generate new hope and new ambition in the men who come under its care and influence."

New Bidding Method

John A. Kennedy, director of the Illinois Department of General Services, announced that an excess of two million dollars has been saved on the construction of Vienna State Penitentiary by his agency.

"When bids were originally taken on the mechanical work," Kennedy said, "they were in excess of \$870,000 of the original estimate."

He explained that the scope of the work at Vienna was then increased, the original mechanical construction bids were rejected and successful efforts were made to improve the bidding method. The new bids for both the mechanical and the general work were \$1,473,000 below the estimate.

Information System Automated Final selection of computer equipment marks the last phase of a year-long program to expand the Department of Revenue's electronic data processing operation into a fully automated taxpayer information system.

The new high-speed computers will accomplish many functions of tax administration much faster, and at much less expense, than is now possible. Director Theodore A. Jones predicted that overall savings would be more than \$1 million per biennium when the installation is completed and in operation.

Skunked Duck Hunters?

Illinois duck hunters are faced with the worst opening day in 30 years, said Frank Belrose, wildlife specialist for the Illinois Natural History Survey. Duck population is low due to poor nesting conditions on the Canadian prairies and foods are scarce in the Illinois Mississippi River Valleys.

Sternberg Tours Colorado, Minnesota, Dakotas, Kansas

Unusually large audiences greeted Gene H. Sternberg, Optimist International president, and his wife, Ruth, on the most recent trip in the west, as part of his year's tour of speaking engagements.

The Sternbergs were recipients of a large number of gifts during the trip, among them pewter candlestick holders presented in Minneapolis, an antique cut glass bowl received in Denver and an elaborate copper chafing dish at Pratt, Kans.

The trip was divided into three areas with the first including the Dakotas, Manitoba and Minnesota; the second through the Colorado and Wyoming districts and the third in the state of Kansas.

The first stop was in Minneapolis for an evening banquet where representatives of the mayor and aldermen presented the International President with the "Minneapolis Distinguished Service Award" on behalf of the city council and Chamber of Commerce of that city.

Interview With Students
A news conference with about 12 high school newspaper editors proved interesting, Sternberg said, adding that their questions were intelligent and inquiring. The session lasted nearly an hour.

After the conference, the Sternberg group toured newly improved areas of Minneapolis,

seeing new Mall construction in the downtown section, which is a result of the retailers' effort with local government guidance. "This specific project proves how far co-op groups can go in maintaining a section of a city," Sternberg, a former alderman, noted.

Concluding the stay in Minnesota, the delegation flew to Denver and was met by a large group of Optimist and other dignitaries from the Colorado-Wyoming area. Here the Sternbergs were taken by the governor and lieutenant governor and district chairman of Optimist Clubs by car in the "longest limousine" ever encountered in the travels of the local con-

Mayor for a Day

A visit to Fort Collins began with a bit of humor, as the encouragement was met at the edge of town by the assistant mayor, who was standing, beside a large sign saying, "Welcome G. H. Sternberg, President of Optimist International." At this time the assistant mayor announced he had been instructed to appoint Sternberg, "Mayor of Fort Collins for a day." This brought a note of mirth to both Gene and Ruth Sternberg as they recalled their problems in his campaign for mayor of Granite City.

The Optimist meeting was planned in the Student Union at Colorado State University, and

the mayor had gone there to quell a disturbance after the students had decided to take over the operation of the building.

All complaints were resolved quickly and the meeting went off as scheduled, with the attendance being the biggest in the history of the Colorado-Wyoming district.

Moving at a fast pace, the local group then went by plane to Wichita, Kan., arriving shortly after lunch and were taken immediately to the VIP room for an interview by representatives of two TV stations. The discussion was primarily on "Respect for Law," a slogan selected in 1965 as part of Community Service programs

for the Optimists International. The final stop was made in Pratt, Kan., located about 70 miles west of Wichita. There, they toured the town in a parade which ended at an evening meeting.

Also attending the meeting was Dr. Kenneth McFarland, a noted public speaker, educator and businessman. "He is credited with doing much for his country in promoting the American system in his speaking tours around the country," Sternberg noted.

State Representative Dick McNamney, who also is a past International vice-president of the Optimist International presented Sternberg with the Kansas flag.

Patient Population At Hospital Drops

Strikes in the local industries were given as a cause of a drop in the patient population at St. Elizabeth Hospital, the Lay Advisory Board was told Monday afternoon by Sister Mary Thomas, administrator.

She reported the average has been 225 to 280 patients, and on Sunday there were 185 persons under treatment. The number increased to 201 on Monday.

The Lay Advisory Board adopted a resolution to support a proposed bid by Southern Illinois University-Southwestern campus for medical school facilities. The university, it was reported, will be seeking such facilities to tie in with the development of a dental school.

A steering committee is to be organized in about a month.

Nineteen community clients are enrolled in therapeutic sessions at Alton State Hospital in a day care psychiatric program. Clients are received into the program through referrals from the Mental Health Clinic, local physicians, other social agencies or individuals who may call Mrs. Joan Hashmi, coordinator, for full information.

Staff members of both Granite City and Alton Mental Health Clinics coordinate their efforts with the day care hospital staff on a part-time basis.

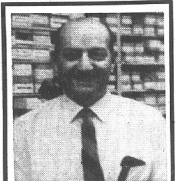

The short-term intensive psychiatric treatment service is programmed for a two-month period, and the goal is for early treatment to total hospitalization.

Wabash Ave. Parkway Extension Planned

Construction of the west lane for the Wabash avenue parkway between Johnson road and Clark avenue by the city street department is expected to be started soon.

Granite City council members Monday night authorized the engineering firm of Research Planning Design Associates to stake out the roadway which will be located on an 80-foot easement.

Council members debated and then approved a \$3989 change order for the added amount to be paid to S. M. Wilson & Co. for construction of storm water sewers.

Difficulty Encountered

The ordinance was placed on first reading last week, and Mervin Grant, resident engineer for the project for H. W. Lochner Co., explained the difficulty was encountered after a slab-type concrete 54-inch sewer was uncovered instead of a tile.

"There was nothing on maps indicating the type of sewer, and a large excavation was required, including difficulties with weather—and the need to re-excavate after a deluge. A siphon is being placed there," he added, advising the council that the change has been approved by the Federal Housing and Urban Development Agency.

When council members expressed concern that the project might go over the \$3,000,000 available funds for the special bond issue and federal fund grant, the engineer said savings also are in the process of being carried out in modifications, and that he was certain the funds would be adequate.

Under Cost Figure

Engineer Grant noted the sanitary sewer phase, even with extensions and added lines, was under the \$100,000 cost figure. The aldermen pointed out that last week, when Alderman Bartosiek, chairman of the Special Sewer committee, was absent, they had no way of knowing details of the \$5989 change order. Engineer Grant said it was his understanding he was to work with the committee on such revisions. He was instructed to submit detailed reports or to be present for sessions whenever such change orders are forthcoming.

Briefly discussed was the status of city sewer maps. The engineer said he had a set in his possession, but there was no specific designation of the type of sewer line at East 24th and Bromley, and the problem was not uncovered until the contractor started work there.

Surface Water Problems
Moerlen was critical of standing water problems in East Granite, suggesting the contractor could pump the water into existing sewers to aid residents of the area.

The engineer pointed out that a delay in getting the ditch easement has stalled the project, but that the contractor is working full-time to complete the channel work to open the lines for drainage.

Bartosiek presented a letter from HUD, cautioning the city

about change orders and staying within allocated funds.

Mayor Partney pointed out the city should be receiving the federal grant funds for the sewers in the near future. Application may be made when the project is at the 40% completion mark, and the mayor said that point should be reached by next week.

The project engineer was instructed to prepare the necessary papers, with the mayor, Bartosiek, city attorney and engineer authorized to go to the Chicago office of HUD next week.

Railroad Crossings

In other action, Nann called for Assistant City Atty. Harry Hartman to begin work on accomplishing repairs to railroad crossings. "He told us he could get the job done seven weeks ago."

Mayor Partney cautioned council members not to work too many hardships on the city's legal staff. "It's difficult to get attorneys for city work," he added.

Alderman Green called for curbing at the Edwardsville and Nameoki roads intersection to be painted with reflective material. "It's difficult to find the proper lane, especially at night during a rain."

Permission was given Illinois Power Co. for four excavations, one 3200 feet long, along Sherman avenue from 20th to 21st

street and in the alley west of 20th street from Sherman to Omaha street to install a new gas line.

Referred to the city controller to determine if sufficient funds are available was a request for an allocation of funds by the East-West Coordinating Council for regional planning. The amount would be five cents per capita—\$1963.

Approval was given the Seventh Day Adventist Church to conduct its annual ingathering program Nov. 28 to Jan. 3, with volunteers to go house-to-house between 4 and 8 p.m. with a sound vehicle. The request was submitted by Mrs. Earl Grupe, 2900 Dogwood drive, who is health and welfare director for the church, and the pastor, Donald Lewis.

Referred to the city attorney for preparation of an ordinance was a request by Alderman Green for stop signs on Grand avenue at 29th street.

Parking Lot Accident

Bill List, Payroll Sick Leave Ok'd

The city bill list totaling \$23,729 for one week included payment of \$5652 to A. H. Seebold Co. for work on Johnson road and \$2559 for resurfacing East 25th street east of Nameoki road.

Also included were payments of \$2921 to Illinois Power Co. for street and alley lighting during October and \$1657 to East St. Louis & Interurban Water Co. for October rental on 401 fire hydrants.

The second installment due to Mrs. Velma Rapp on a court judgment of \$17,500 amounted to \$5731. Another is due in January.

Also approved by the council were the payroll amounting to \$48,900 for the first half of November and sick leave payments totaling \$1339.

Truck Battery Stolen

Theft of a battery from a truck owned by Duffin Bros. Lumber Co. of Madison was reported Monday afternoon to police. Fred Duffin reported the theft occurred after noon Saturday.

Alderman Moerlen called for separation of the sewage treatment plant employees' wages, pointing out that the increases had not been budgeted, but the council later went on to approve the payments.

Junior Colleges Take Work Load Off SIU

Junior colleges are beginning to take on some of the responsibility for adult education that Southern Illinois University has borne virtually alone in this area for two decades, according to Dean E. J. Simon of the SIU division of technical and adult education, Carbondale.

The university was the first agency to conduct a coordinated program of non-credit cultural, academic and vocational courses for adults throughout much of Southern Illinois. Through local secondary schools, courses have been offered in everything from physical fitness to tailoring and welding and high school review.

At the same time, the university's adult education staff has conducted workshops, seminars and short courses to provide continuing education for professional and technical personnel.

"Our resources and staff have been stretched thin to supply the basic community-oriented courses, but the entry of the junior colleges into this area is freeing us to concentrate more effort on professional and technical programs," at and technical programs."

The play, which was first produced in Paris in 1957, concerns four unusual characters who attempt to redefine their lives in the face of death. Student Handlers Sought For Cougar at SIU-SW

About 115 pounds of soft and saucy feminine friendliness is seeking handlers from among Southern Illinois University campus students at the University Center on the campus. She's quite a pussy-cat.

Chimera, the one-year-old female cougar mascot, needs handlers who can give plenty of tender loving care.

The Cougar's Guard, an all-university group designed to provide daily care and special events handling of the mascot, accepted applications for membership in the organization Wednesday.

Larry Stuart, chairman of the Cougar's Guard, said a love of

animals and having enough time to work about five hours per week are the two main qualifications for membership. He also added that the student would have to be male. "It takes strength to hold onto Chimera," he said.

Here since February Stuart, 22, has worked with the cougar since she came to the campus last February. He is a sophomore, a member of Alpha Phi Omega and is studying public administration and planning.

He said the duties would include washing, brushing and exercising the cougar and cleaning her cage. Daily exercise is

the prime consideration, he said. It consists of running and obedience training complete with voice commands.

Stuart said, "You can never completely train a wild animal and expect it to be domestic, but Chimera is very docile and friendly." The only complication comes when she gets her bath once every two weeks.

Cat Likes Water

He said the cat likes to stand in the tub and doesn't mind being washed. Except, Chimera doesn't like water in her face. "We try to keep away from any water splashing," Stuart said. Breakfast and dinner for Chimera are at 8 a.m. and 4 p.m.

Stuart said she eats about five to six pounds of food a day. Her diet consists of hamburger, chicken and beef hearts, all served raw. During vacations, he added, she may get some variety with donated wild fowl.

Chimera was born in captivity in Houston, Tex., and spent her early life being raised with children. She came to SIU-SW last February and now measures about six and a half feet from tip to tail.

Chimera is kept at Hawthorne Animal Hospital, one mile south of Edwardsville. Plans are being made to provide Chimera with quarters on the campus.

'Peanuts' Chosen as Theme for Dinner

"The World of Peanuts" has been selected as the theme of the annual spaghetti dinner to be sponsored by the vocal music department at Granite City high school on Nov. 19.

The theme will feature author Charles Schulz' famous comic strip characters. The Peanuts gang, including Charlie Brown, Lucy, Linus and Schroeder, will provide continuous entertainment. Decorations will be in keeping with the theme.

Committee chairman planning the event are Marilyn Bess, Joan Grankinoff, Mary Moser, Janet Young, Ed Mullins, Herb Williams and John Gage. Twenty-four girls have been selected as waitresses. They are:

Polly Gloeckel, Laura Smith, Debbie Wallace, Chris Maxfield, Gail Fenton, Charlotte Joyce, Becky Bailey, Gal Fuller, Peggy Smith, Phyllis Swiley, Norma Miller, Kathy Grogg, Valeria Landess, Debbie Honnoll, Pam Cason, Peggy Ham, Kathy Kingsley, Charry Crews, Susan Goodin, Janet Moore, Jo Ann Meyer, Camille Carpenter, Terry Kingsley and Patti Shands.

The dinner will feature "all the spaghetti you can eat" plus a tossed salad, bread, butter, dessert and a drink. Tickets are available from all vocal music students at \$1.50 for adults and 75 cents for children 12 and under.

County Assoc. Advises On 'Hong Kong Flu'

The Madison County TB Association today announced information concerning the new influenza virus, which is expected to hit many people this winter in this country.

The new form of the A-2 strain appeared in Hong Kong last summer and may dodge the effects of presently available vaccines. In the words of a U. S. Public Health Service report, "Current vaccines may provide only limited protection against A2/Hong Kong/68."

The symptoms are much like the symptoms of the common cold, only more severe. There may be sore throat, nasal congestion, dry cough, chills, fever, muscular aches and quick rise in temperature.

Complications could develop, such as bronchitis, pneumonia, sinus trouble, each infection.

For persons more vulnerable than the average, the Madison County TB Association recommends vaccination with current vaccines, even though the protection may be less than complete. "Such persons include those 45 years old or more; those with a chronic illness; patients in nursing homes or chronic disease hospitals; and pregnant women. A new vaccine is on the way, but it will take time. When it does become available, let your doctor decide whether you need it," the association advises.

SIU-SW Project

TV Experiment at Parkview School for Student Teachers

Southern Illinois University-Southwestern campus has been operating TV videotape equipment at Parkview school to record progress made by student teachers and to study student reaction.

The unit consists of television equipment assembled in a van and a control camera and microphones mounted on stands are assembled in the classroom.

One camera is focused on the student teacher and the other on the students, making it possible to tape alternately teacher activity and pupil responses or simultaneous recording of both for split screen viewing. This provides for full length video tapes of classroom activity.

At present, the mobile television unit is being used experimentally as a means of evaluating lessons taught by the student teachers. This provides the co-operating teacher and university supervisor an opportunity to sit in the van and observe the progress of the class via television and at the same time direct video taping of the student teacher's lesson.

Teachers cooperating in this project are Virginia Treat, Mary Ann Wiseman, Janet Wilson, William Breidenbach and student teachers Evelyn Cross, Beverly Dombrosky and Mike Skinner. Mrs. Agnes P. Fryntko is the principal of the school.

last year, while the daily average so far this year is 6.2, compared to 5.6 for the first 10 months last year.

Others include those on steroids, diabetics and those undergoing gastroscopies.

Legal Opinions Advises City Of Limitations in Budget

Fund transfer resolutions kept Granite City council members busy Monday night in face of a legal opinion requested from City Attorney, Allen concerning expenditures exceeding budgeted amounts.

In the 3 1/2-page opinion, Allen stressed quotations from state laws — "Neither the corporate authorities nor any department or officer of any municipality

shall add to the municipal expenditures in any fiscal year anything over and above the amount provided for in the annual appropriation ordinance of that year."

"No expenditure for an improvement to be paid for out of the general fund of the municipality shall exceed, in any fiscal year, the amount provided for that improvement in the annual appropriation ordinance. If a municipal corporation enters into a contract or incurs an expense without a previous appropriation, the contract is null and void as to the municipality, and there can be no recovery on it."

Fund Transfer Process
The opinion further stated that the city may, after half the fiscal year is over and by two-thirds vote, transfer funds within any department or other separate agency of the municipal government.

In a discussion, it was brought out that the council customarily transfers sales tax reserve funds to various city departments, and it was decided that in the future such use of sales tax funds are to be specified.

One resolution adopted by the council transferred \$239 from the sales tax fund to the special improvement fund to cover costs and added costs on projects. Another motion to transfer about \$3000 from sales tax to special improvements for engineering costs on the projects was withdrawn until the firm of Research Planning & Design Associates provides a breakdown of engineering service costs for each project.

Proposal Challenged
Mayor Partney challenged such a transfer, pointing out the council had eliminated an \$8500 budget item for engineering upon adopting the appropriation ordinance last summer.

Non questioned, an action of last week in payment of \$1500

Teen Chorale to Sing Here Saturday Evening

The Teen Chorale of Springfield, Mo., will be presented in concert at First Assembly of God Church, 24th street and Grand avenue, Saturday at 7:30 p.m. The Chorale is composed of 41 "Teenagers" from four high schools in Springfield.

The choir made several tours this summer and will be touring south Texas during the Thanksgiving holidays. Mrs. Dorothy Kirschke is director of the group.

All teenagers are invited to attend "5th Quarter" following the football game Friday. The "5th Quarter" is held in the church fellowship hall and Teen Chorale will provide the entertainment.

Saturday afternoon, the Teen Chorale will sing at the Nameoki Village shopping center.

Mike Raffel, president of First Assembly's Youth organization invites the public to attend the Saturday night concert.

Receives Diploma

Pvt. Randy K. Choat was awarded the military rating of Topographic Surveyor, and received a diploma upon successfully completing the Topographic Surveying Course in the Department of Topography at the U. S. Army Engineer school at Ft. Belvoir, Va.

His parents, Mr. and Mrs. Martin L. Choat, reside at 2104 Dawn place. He was graduated from Granite City high school in 1967.

for air pollution monitoring equipment which had not been specified in the budget.

Another fund transfer resolution approved Monday night was to take \$5000 from sales tax for payment of salaries of school crossing guards; and there was a transfer of funds within the street department, to take \$331 from the \$2000 contingent funds to apply to the \$7500 budgeted for purchase of new dump trucks. The low bid was \$2851 by Mathews Chevrolet.

Objections were raised to granting pay increases to two-part-time employees who operate the insect spraying machines five months each year. It was noted they had been overlooked when pay boosts were given other city workers. The objections were withdrawn when City Comptroller Robert Stevens advised council members the pay increases had been included in the budget. The ordinance grants pay boosts retroactive to May 1 for Cecil Lyons and to June 10 for John Heath. The new hourly pay scale will be \$5.6777, up from \$3.36 per hour.

Servicemen Families Like 'Yule Mail Call'

Press-Record's . . .

Yule Mail Call (Clip and Save)

Quad-City servicemen and women stationed around the world, whose names and addresses are being published in each issue of the Press-Record as a special pre-Christmas public service. It is suggested that readers clip-out and retain the lists as they appear.

Local residents are invited to include the servicemen on their Christmas mailing list and send greeting cards, letters or packages, thereby helping to brighten the coming holiday season for military personnel who are away from their homes and families. Early mailing is recommended.

On Midway Last Year

"Last year, he was overseas on Midway Island," Mrs. Jacobs continued, "This year he has been sent to Vietnam, where he is serving a one-year tour of duty with C.B.M.U. 301, at Dong Ha. He is driving heavy equipment."

"His family and I would be grateful if you would be so kind to add his name to the list. I'm sure he will appreciate all the 'Hello's' from home. A word from home means so much to a man so far away and at Christmas. Thank you for starting this program and for adding his name."

Two sets of brothers serving in the Armed Forces are Roy L. Vaughn, on duty aboard the destroyer USS Rowan in Southeast Asia, and Donald W. Vaughn assigned to USS Puffer out of Pascagawla, Miss.; and Philip M. Karandjeff, U.S. Navy Air Force, who is with a fighter squadron on board an aircraft carrier and his brother, Army Private Robert Karandjeff, presently in training at Fort Leonard Wood, Mo.

Away from home for his first Christmas is Specialist Four Charles "Rich" Tankley, who was stationed in Germany, but volunteered to serve in Vietnam where he will spend the Yuletide holidays.

Information Needed

Relatives and friends of the Quad-City servicemen and women are invited to submit their names and addresses to "Yule Mail Call" for publication in subsequent issues.

To ensure accuracy, those submitting the addresses are asked to include the serviceman's full name, rank, serial number and APO or FPO when applicable. The area of service will be listed in parenthesis following the address when noted. The information should be written on a postal card or slip of paper and mailed or brought to the Press-Record office, 1817 Delmar avenue. Readers are urged to clip out the lists as they appear, adding the addresses to their regular Christmas mailing lists.

Council Objects To Tax Settlement For Water Co.

Opposition to a proposal by the Taxation committee of the county board of supervisors to settle for 20% the taxes proposed for Granite City township by East St. Louis & Interurban Water Co. was voted Monday night by Granite City council members.

The aldermen voted first to object to the settlement during the brief meeting as the town board and then as the city governing body during the council session.

Recommending settlement was Gilbert Killinger, chairman of the county Taxation committee, who said final action would be taken Nov. 15, if no objections were received. The amount of taxes proposed by the water company amounts to \$17,033 for taxing agencies in the township. The company proposed property assessments for 1968 and 1962. The 20% settlement would amount to \$3407.

In other town board action,

Youth Corps Summer Work Projects Outlined to City

A letter of praise for the operation of the Neighborhood Youth Corps under a cooperative arrangement between the federal government, city, local merchants and Coordinated Youth Services office was received Monday night by Granite City Council members.

It was written by Ronald Frazier, 31, of 2135 Dewey avenue, who supervised a group of youthful workers. He noted that one of the youths has since enlisted in the Army, another is enrolled in a barber school and most of the other boys went back to school in the fall.

Mayor Partney inaugurated the program in Granite City two years ago and expanded it this year with \$1000 city funds allocated by the council to buy tools and equipment for the youthful workers.

Salaries of the boys were paid by the federal government, and the local merchants donated funds to pay the salary of the adult supervising them. The letter from Frazier was placed on file by the council.

Useful Program

In his letter, Frazier stated: "Gentlemen, this summer there was a program for young men and women that was useful and workable. As you know, the

federal government in connection with our city and local businessmen, brought into being a program called the Neighborhood Youth Corps.

"The federal government paid the wages of the young people, while the city bought the equipment. The businessmen paid the wages of the supervisor.

"Twelve young men worked in the downtown area and another was stationed at the city hall to cut grass and do other work. The 12 young men also took care of the Nameoki and Bellevue Village shopping centers areas and included a day's work in Lincoln Place on instructions from Street Supt. Warfield. They cleaned up several blocks of small bits of paper, glass, weeds, etc.

"If the program continues, the boys could do more of this type work throughout the community something that has not heretofore been done by any union workman, so this does not take work away from them," Frazier continued.

Downtown Lots Cleaned

"Lots were cleaned off in the downtown area that had never been cleaned before. Two truckloads of debris a week for eight weeks were hauled away. The street department came regis-

trally with a high lift and dump trucks. The department cooperated fully in the endeavor.

"Equipment provided by the city included shovels, three types of brooms, rakes, grass cutters, three dollies and water jugs, without which no work could have been done. Barrels were donated by the Nesco Steel Barrel Co. and boxes by Nelson & Sons, a local pickup service.

"To some people," Frazier said, "All of this sounds relatively unimportant. They feel as if we have said, 'they're doing what the street sweepers should do.'"

"In part, this is true, but the youths also cleaned where the street sweepers couldn't go—such as on lots, sidewalks and behind parked cars.

"These boys came from poor or large families and their wages helped with the family income. By spending a little money now, the city, state and federal governments can save a lot later, should idle boys get into trouble.

"Most of the boys went back to school and were looking forward to a fall and winter program. Their enthusiasm for the program had not waned at the end of the summer. They are boys that appreciate that a city

is concerned about them and shows the concern through local people becoming involved in their problems.

"They also know that without the mayor of Granite City bringing the program to the city, none of this help would have been possible for them.

"This is local Democracy at work with the cooperation coming from the mayor, councilmen, businessmen, Coordinated Youth Services and the street department."
